## STAKEHOLDER ENGAGEMENT

For seven years, UTC has sought feedback on its corporate responsibility reporting and performance. Throughout 2011, across the globe, we engaged stakeholders in all our activities and efforts, which include, but are not limited to, environment; health and safety; ethics; governance; human rights; and overall community affairs. These relationships and partnerships help inform our approach and its integration with our business efforts.

This report and its associated Web content at [www.utc.com](http://www.utc.com) provide detailed examples of how our approach to integrating responsibility into our operations fosters a culture of innovation and delivers results.

Your feedback is important to us. Please visit [www.utc.com/responsibility](http://www.utc.com/responsibility) and tell us what you think of our financial and corporate responsibility performance and reporting.
